01 Enumerations

02 Rock Paper Scissors

03 Elections Pau?

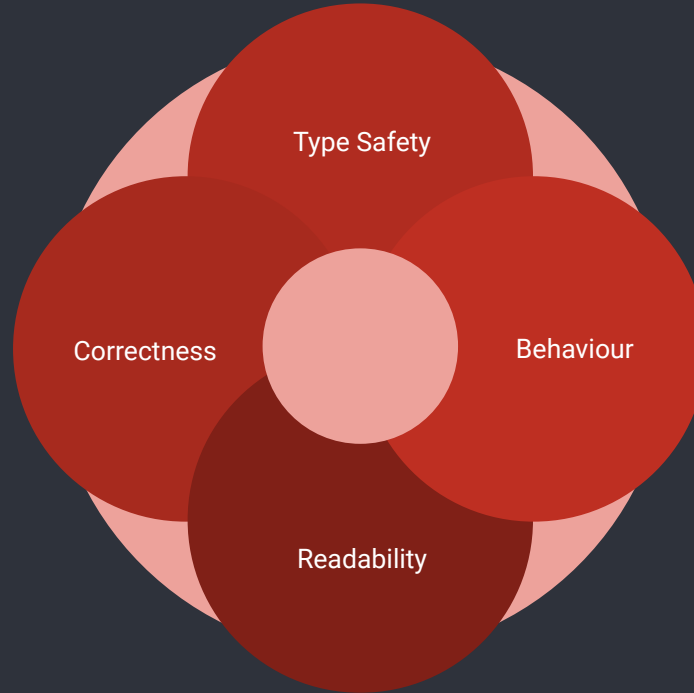

Enumerations

```
Seasons.java x
1  public enum Seasons {
2      WINTER,
3      SPRING,
4      SUMMER,
5      AUTUMN
6  }
```

Why Enumerations?

Rock Paper Scissors

```
1 package org.academiadecodigo.powrangers;
2
3 public enum RockPaperScissors {
4     ROCK,
5     PAPER,
6     SCISSORS;
7
8     public static RockPaperScissors getShoot() { return values()[((int) (Math.random() * values().length))]; }
9
10
11
12     public static void start() {
13
14         String player1 = "Telmo";
15         String player2 = "Luis";
16         int player1Wins = 0;
17         int player2Wins = 0;
18
19         while (player1Wins < 2 && player2Wins < 2) {
20
21             RockPaperScissors player1Choice = RockPaperScissors.getShoot();
22             RockPaperScissors player2Choice = RockPaperScissors.getShoot();
```

```
24 if (player1Choice == player2Choice) { //Possibilities in the matchup
25     System.out.println("You chose the same, it's a tie!");
26 } else if (player1Choice == RockPaperScissors.ROCK && player2Choice == RockPaperScissors.SCISSORS) {
