

A wireframe model of a human head is positioned on the left side of the image. The head is composed of a grid of white lines, giving it a digital or mesh-like appearance. The background is a dark blue gradient with intricate, glowing white circuit board patterns. These patterns consist of various lines, dots, and small circles, resembling electronic traces and components. The overall aesthetic is high-tech and futuristic.

Human Computers

Leave Me Alone

Masterpiece

Thank you

What is a computer?

Definition:

A programmable electronic device designed to accept data, perform prescribed mathematical and logical operations at high speed, and display the results of these operations.

But NO!

Definition:

A programmable electronic device designed to accept data, perform prescribed mathematical and logical operations at high speed, and display the results of these operations.
