GAME MF*** Time

Time to test our brains!

Which Class has a constructor?

A

```
1 public class Watermelon {  
    no usages  
2     public boolean heavy = false;  
    no usages  
3     private Seed seed;  
4 }
```

B

```
1 public class Skate {  
    1 usage  
2     private String brand;  
    no usages  
3     public Skate(String brand){  
4         this.brand = brand;  
5     }  
6 }
```

0

C

```
1 public class Cadet {  
    no usages  
2     public void burnBrain(){  
3         System.out.println("Bzzzz");  
4     }  
5 }
```

D

```
1 public class Peanut {  
    no usages  
2     public int salt;  
3 }
```

1st question

Constructor?

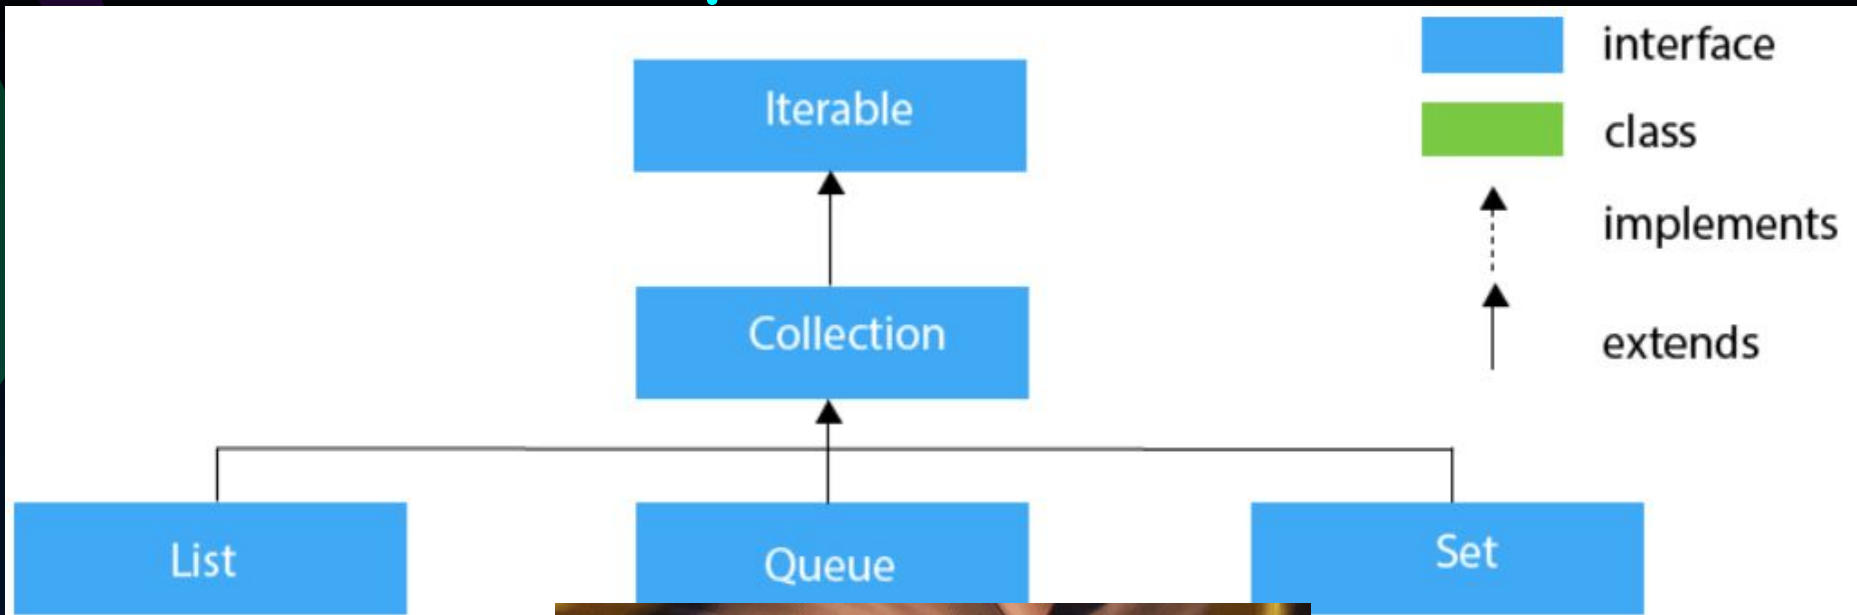

Class
[Blue print]

Object
[actual object]

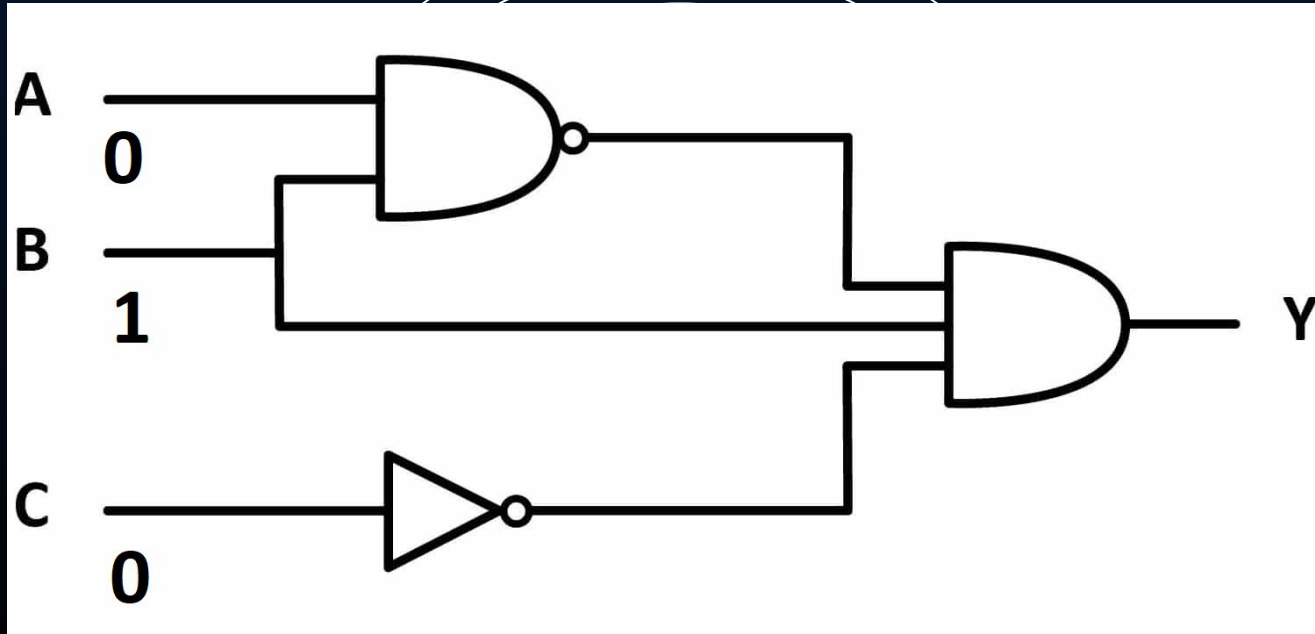

Collections?

Output in Y?

!

+ 2nd question

111001 to decimal?

A 57

B 48

C 52

D 45

3rd question

Which sentence is true?

§

A

TCP and UCP work exactly the same way

B

Dynamic Host Configuration Protocol (DHCP) is a protocol that automatically provides an Internet Protocol (IP)

C

A constructor is never used if it receives Strings as arguments

D

The set interface allows duplicates

4th question

TCP e UDP

UDP - connectionless: no session between the client and the server;

TCP - connection-oriented: an exclusive connection must first be established between the client and server.

k

Which sentence is false?

A

Inheritance is a concept that acquires the properties from one class to other classes

B

A xOr gate outputs 0 when both inputs are 1

C

A void method always returns null

D

You can instance a class twice

5h question

04

EXERCISE

Dad Joke Generator

DAD JOKE GENERATOR

```
try {  
    HashMap<String, String> jokes = new HashMap<>();  
    jokes.put("cow", "Why do cows have hooves instead of feet? Because they lactose\n");  
    jokes.put("knock", "Did you hear about the guy who invented the knock-knock joke? He won the no bell prize\n");  
    jokes.put("teeth", "What's red and bad for your teeth? A brick\n");
```

```
ServerSocket serverSocket = new ServerSocket( port: 6967);  
Socket client = serverSocket.accept();  
PrintWriter out = new PrintWriter(client.getOutputStream(), autoFlush: true);  
BufferedReader in = new BufferedReader(new InputStreamReader(client.getInputStream()));
```

```

while(true) {
    String question1 = "\n*****\nI have some jokes about cow, knock and teeth! " +
        "0r do you prefer your own jokes??\n1- Write hear theme\n" +
        "2- Want to tell a joke? Write tell theme joke\n" +
        "3- Write remove theme\n" +
        "4- Write print to check my jokes\n" +
        "5- Write quit to exit server\n";
    out.write(question1);
    out.flush();
    String reply = in.readLine();

```

```

if (reply.equals("quit")) {
    return;
} else if (reply.startsWith("tell")) {
    if(jokes.size() == 0) {
        System.out.println("No jokes available");
    } else {
        String firstCut = reply.replace(" ", "");
        String headJoke = firstCut.split(":", 2)[0];
        String finalJoke = firstCut.split(":", 2)[1];
        jokes.put(headJoke, finalJoke);
    }
} else if (reply.startsWith("remove")) {
    String firstCut = reply.replace(" ", "");
    String headJoke = firstCut.split(":", 2)[0];
    String finalJoke = firstCut.split(":", 2)[1];
    jokes.remove(headJoke);
} else if (reply.startsWith("print")) {
    out.write(String.valueOf(jokes));
} else if (reply.startsWith("quit")) {
    return;
}
jokes.put(reply.split(":", 2)[0], finalJoke);

```

WHICH METHOD IS A HASHMAP METHOD?

A

.flush()

B

.replaceFirst()

C

.complicate()

D

.remove()

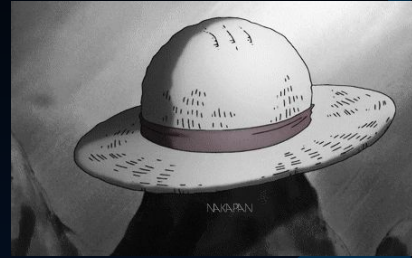

6th question

TO WHOM DID I SPEAK IN THE BEGINNING OF THIS PRES.?

CHRIS

RITA

&

PEDRO

FANUCA

last
question

LET'S SEE THE ANSWERS AND YOUR PRIZES!

o = B

& = sidekick

! = 1

@ = A

§ = B

k = C

' = D
